Price as configured:  
\$0.00

Superfine, soft Merino wool is one of the best natural wicking and temperature regulating materials in the world, critical to maintaining stable comfort in widely varied conditions. Super Skin blends high-performance, Merino wool with superior-quality polyester to provide a free-moving close-body fit with increased durability and reduced shrinkage. S3 silver anti-microbial technology inhibits odor formation, even under long, heavy use. It's base-layer performance plus pure practicality.

- Super Skin Shirt: 90% Polyester/10% Merino Wool Interlock fabric
- Crew neck style shirt
- Thumb loops for easy layering
- Raglan sleeves for ease of movement
- Flat seams for comfort

Reviews

**4 Direction Stretch™** Provides superior comfort, fit and freedom of movement. The inherent multi-directional stretch of the fabric allows you to perform the movements needed to hunt while not worrying about your garment binding or restricting you.

**Merino™ Wool** Merino wool is a high performance fine wool that provides natural temperature regulation and moisture management. It is a sustainable resource and one of the worlds super performance fibers that has been time tested. Textile science has allowed us to refine wool to the point that it's comfortable to wear and easy to care for.

**Micro-Wick™ Technology** Contains a unique moisture wicking element to disperse moisture away from the skin to keep you dry and better regulate temperatures and enhance comfort.

**S3™ Silver Anti-Microbial Technology** S3 products utilize antimicrobial technology which helps to inhibit the growth of odor causing bacteria. S3 keeps the garment smelling fresher longer.
